0896 5620 2076 | rafimaulanaf03@gmail.com | <https://www.linkedin.com/in/rafimInf/> | <https://github.com/RafiMInf>
Cikarang, Kab. Bekasi

An Informatics Engineering student at Pelita Bangsa University merging technical proficiency in front-end development with a high-level mastery of graphic design and digital aesthetics. Possessing a meticulous eye for detail, I excel at distilling complex ideas into structured, intuitive user experiences (UX). Backed by organizational leadership, I bring strategic emotional intelligence to team coordination, navigating challenges with objective, evidence-based problem-solving. I am driven to craft polished, engaging digital products while continuously innovating within the creative technology space.

Experiences

Full-Stack Web Developer

Freelance

- Developing web applications from the design phase through to deployment.
- Managing databases, backend features, and user interfaces.
- Performing system testing and debugging prior to implementation.

Graphic Designer

Oct 2019 - Present

Freelance

A visual arts enthusiast dedicated to the continuous mastery of graphic design. For me, art is the ultimate form of communication and expression. This intrinsic motivation has pushed me to refine my craft to a point where my creative work now provides meaningful value for others, allowing me to take on various design projects and commissions alongside my personal exploration.

- Developed visual concepts based on creative briefs and desired brand identities.
- Managed color composition, typography, and layout to produce balanced and communicative designs.
- Conducted design trend research to maintain visual relevance and appeal

UI/UX Mobile Programming Webinar - Universitas Pelita Bangsa

Speaker

Demonstrated technical proficiency in frontend mobile programming by leading a specialized UI/UX webinar. As part of the university's OBE curriculum, I translated complex design concepts into actionable lessons for students, focusing on creating intuitive and responsive mobile interfaces.

- Served as a speaker in a seminar focused on UI/UX in mobile application development.
- Explained the fundamental concepts of interface design and user experience in a structured manner.

Education

Universitas Pelita Bangsa - Cikarang

Jul 2022 - Sep 2026 (Expected)

Bachelor of Informatics Engineering, 3.36/4.00

- UI/UX Webinar Speaker

SMK Negeri 2 Garut - Garut

Jul 2018 - Jun 2021

Senior High School, Electrical Engineering

- Competent and selected as a recipient of the BNSP (National Agency for Professional Certification) certificate.

Projects

ELINA - SMK Negeri 2 Garut

Feb 2026 - Present

Full Stack Developer

A Progressive Web Application (PWA) designed to manage student internship programs. The platform features location-based attendance tracking, daily journaling, secure Google OAuth authentication, and an admin dashboard equipped with dynamic data visualizations. Engineered with PWA technologies, the application delivers a highly responsive and native-like experience across all devices.

- Developed the complete full-stack web application (PHP & PWA) from end-to-end.
- Integrated core features including Google OAuth, location-based attendance, and real-time notifications.
- Designed intuitive dashboards featuring dynamic heatmaps and interactive data visualizations.

TADIKA - Personal Web Development Project

Mar 2026 - Present

React / Next.js Developer

Next.js Web Application Architected and developed a high-performance, responsive web application focused on rich media presentation and interactive UI design. Built using a modern technical stack (Next.js, TypeScript, Tailwind CSS), the project demonstrates architectural best practices, seamless third-party API integration, and advanced state management.

- Spearheaded the end-to-end frontend development of a dynamic, highly interactive Next.js application focused on advanced UI/UX.
- Engineered a high-performance React application by integrating Framer Motion, Cloudinary API, and Redis for optimized media delivery.
- Architected a scalable and fully responsive front-end structure utilizing TypeScript, Tailwind CSS, and modern Next.js routing.

Skills and Award

- **Technical Skills** : Programming Languages (JS/ TS, HTML, CSS, PHP, Python, Java, SQL), Frameworks & Tools (Next.js, React, Tailwind, MySQL, Redis), Graphic Design (Adobe, Figma, Canva).
- **Soft Skills** : Teamwork, Persuasive Communication, Strategic Leadership, Negotiation, Problem Solving, Emotional Intelligence, Adaptability.
- **Certification** (2021): KKNi LEVEL II INDUSTRIAL ELECTRONICS ENGINEERING - BNSP, Networking Basics - CISCO
